## **Executive Summary**

#### **Health System Overview**

Marshfield Clinic was founded in 1916 by six physicians practicing in Marshfield, a rural central Wisconsin city. At its inception, Clinic founders saw research and education as critical to their practice of health care and that remains so today.

The Clinic became a 501(c)(3) nonprofit organization in 1992 and in 2014, Marshfield Clinic Health System, Inc., was formed. The Health System's mission is to enrich lives and create healthy communities through accessible, affordable, compassionate health care.

The Health System today is an integrated system serving Wisconsin and beyond, with more than 10,000 employees including over 1,200 providers comprising 90 specialties and subspecialties. Its entities provide service and health care to more than two million residents through over 50 locations in 34 Wisconsin communities in northern, central and western Wisconsin.

MCHS primary operations include: Marshfield Clinic; Marshfield Medical Center hospitals in Marshfield, Eau Claire, Beaver Dam, Ladysmith, Minocqua, Neillsville, Rice Lake, Weston, Park Falls, and Marshfield Children's Hospital; Marshfield Clinic Research Institute, Security Health Plan and Marshfield Clinic Health System Foundation.

The Clinic operates several dental clinics in northern, central and western Wisconsin, providing general family dentistry and dental hygiene services to more than 60,000 unique patients per year. These centers were launched through a collaboration including Marshfield Clinic, Family Health Center of Marshfield, Inc., and federal and state agencies, to address the need for dental care in underserved areas. The centers serve all patients regardless of ability to pay or insurance status - uninsured/underinsured, private pay and commercial insurance.

#### **Hospital Overview**

MMC-Park Falls is a 25-bed critical access hospital in Park Falls, Wisconsin.

MMC-PF, offers a wide range of advanced care services including:

- 24-hour emergency services staffed by board certified emergency physicians.
- Imaging and lab space, pharmacy and more.
- Licensed critical care transport ambulances to serve our patients in Minocqua and Park Falls staffed 24/7 with critical care level paramedics and nurses

#### **Implementation Strategy Overview**

This Implementation Strategy is specific to Marshfield Medical Center-Park Falls (MMC-Park Falls) and addresses the community health priorities identified through a collaborative Community Health Needs Assessment (CHNA) process. This document outlines the plans for MMC-Park Falls to support specific community improvement efforts as part of a larger community-wide plan.

This plan was reviewed and approved by the authorized governing body, MCHS Hospitals Board, Inc. on December 13<sup>th</sup> 2021, which is on or before the 15th day of the fifth month after the end of the taxable year the CHNA was completed.

#### **Community Health Needs Assessment Overview**

The MMC-Park Falls CHNA written report includes the process used to conduct the assessment and establish the community health priorities, and describes:

- The community served by the hospital and how it was determined
- Community demographics
- The process and methods used to conduct the assessment including data and other information used, methods of collection and analyzing information, cited external source material
- How the hospital accounted input from persons that represent the broad interests of the community
- How data was collected and what types of data were used in the assessment process
- Health priorities and concerns of all population groups including the medically underserved, low-income, and minority groups
- The identified health priorities of both the community and hospital, including the process and criteria used to identify and prioritize identified needs
- Existing resources in the community available to respond to identified priorities

#### **Accessing the Full Report**

The written report was presented to the MCHS Hospitals Board, Inc. for discussion and was approved on December 13<sup>th</sup>, 2021. The full CHNA report, which details the entire assessment and prioritization process, can be found on <u>https://marshfieldclinic.org/about-us/community-health-needs-assessment-reports</u>.

#### **Prioritization Process**

After completing an extensive analysis of quantitative and qualitative data, the National Association of County and City Health Officials (NACCHO) Prioritization Matrix was used by the committee to determine the health improvement priorities and included questions to answer the following:

- How is the county doing compared to the state and national goals?
- What health priorities have the largest community impact?
- What health priorities have the most serious impact?
- Is the community ready to change?
- Can these health priorities be changed over a reasonable period of time?
- Are there gaps in county efforts to address the health priority?
- Did the community and county data identify this as a health priority?

#### **Health Priorities**

After review of the data and stakeholder input, the top community health priorities identified by Marshfield Medical Center in Park Falls are:

- Alcohol and Substance Abuse
- Behavioral Health
- Chronic Disease
- Social Determinants of Health\*

Due to the interconnected nature of these health priorities, a number of health priorities as shown in *Table A* were combined. However, MMC-Park Falls will continue to support additional community health needs as they arise.

| Table A. Health Priority Crosswalk                                  |                             |  |  |  |
|---|-----------------------------|--|--|--|
| Price County Community Health<br>Needs Assessment Survey<br>Results | MMC-Park Falls CHNA         |  |  |  |
| Alcohol Misuse  | Alcohol and Substance Abuse |  |  |  |
| Substance Abuse   | Alcohol and Substance Abuse |  |  |  |
| Mental Health   | Behavioral Health           |  |  |  |
| Obesity   |                             |  |  |  |
| Vaping & Tobacco Use and Exposure                                   |                             |  |  |  |
| Healthy Nutrition   |                             |  |  |  |
| Chronic Disease Prevention and                                      | Chronic Disease             |  |  |  |
| Management  |                             |  |  |  |
| Social Determinants of Health*                                      |                             |  |  |  |

#### **\*Social Determinants of Health**

MCHS is committed to improving the overall health and well-being of the communities we serve by strategically focusing on health equity. According to the World Health Organization, health equity implies that everyone should have a fair opportunity to attain their full health potential and that no one should be disadvantaged from achieving this potential. Therefore, the MMC-Park Falls will

focus on improving health equity in our communities by implementing strategies that systematically focus on the social determinants of health and subsequently reduce health disparities.

#### **Identified Health Needs Not Being Addressed**

Through the assessment process, other community health priorities were identified that will not be addressed in this plan. The following was considered while prioritizing community health needs; other organizations addressing the specific need, the ability of MMC-Park Falls to impact change, availability of resources, as well as readiness of the community for interventions.

The following health priorities will not be addressed by MMC-Park Falls for reasons indicated:

- Communicable Disease Prevention & Control: Instead of leading this charge, staff participate in the Northcentral Wisconsin Healthcare Emergency Readiness Coalition in addition to numerous COVID-19 workgroups across regional county areas.
- Oral Health: Staff from MMC-PF does not provide related services, however the Family Health Center of Marshfield Dental Center, does lead these efforts locally, regionally and nationally. One of the Family Health Center Dental locations is in Park Falls.

## **Implementation Strategy**

The Implementation Strategy is a part of a community effort to address identified health priorities. Many strategies will be implemented collaboratively with community and Marshfield Clinic Health System partners. Community change is a long-term process that no one organization can accomplish alone, therefore partnerships are essential for success.

### Health Priority: Alcohol and Substance Abuse

| Goal 1: Reduce youth substance use  |  |  |   |  |  |
|---|--|--|---|--|--|

## **Next Steps**

This implementation strategy outlines a three-year community health improvement process. Each year within this timeframe, MMC-Park Falls will:

- Create an annual work plan with specific action steps for that year
- Set and track annual performance indicators for each strategy, evaluate for effectiveness and areas of improvement.
- Track progress
- Report progress toward the performance indicators to the hospital board
- Share actions taken to address the needs with the community at large

## **Approval and Community Input**

This Implementation Strategy Report was adopted by the MCHS Hospitals Board, Inc. on December  $13^{th}$ , 2021.

If you would like to serve on a coalition that helps meet the aims of this report, or have a comment on this assessment, please contact the Marshfield Clinic Health System Center for Community Health Advancement at communityhealth@marshfieldclinic.org or (715) 221-8400.
