Advancing heart health
HOW YOU CAN MAKE A DIFFERENCE

Marshfield Clinic®
HEALTH SYSTEM
FOUNDATION

Support heart care at Marshfield Clinic Health System to enhance community health.

Heart care AT A GLANCE

Heart disease is the second leading cause of death overall in Wisconsin and the leading cause of death for those over 65.

Renovated Cath Lab at Marshfield Medical Center serves over 6,000 patients per year.

9 active heart care clinical trials across Marshfield Clinic Health System.

More than 270 heart surgeries performed and over 256,580 heart care visits at Marshfield Clinic Health System in 2018.

Heart disease affects millions of Americans and is one of the leading health risks in our central and northern Wisconsin communities.

That's why at Marshfield Clinic Health System, cardiac specialists are on the leading edge of innovation in heart care. With your help, MCHS can offer state-of-the-art facilities and equipment, innovative treatments, support networks and preventive care to keep hearts healthy and strong.

You can advance compassionate heart care for your family, friends, neighbors and people worldwide.

"It's been one year since my surgery and I'm grateful every day for the compassionate care I received right in my backyard. From my physical where my heart issue was detected, to my surgery and post-operative care, to the cardiac rehab team, everyone helped me get back on my feet."
- Denny, heart patient

Gifts from people like you fund important heart care programs and services across our Health System.

Treatment and research:

- New equipment for Marshfield Medical Center's Cath Lab. This area provides cutting-edge procedures to diagnose, monitor and treat coronary artery disease. The Cath Lab is also a space to perform diagnostic cardiac cath, coronary intervention and structural heart procedures.
- Clinical trials and innovative treatments for heart disease, offered through collaboration between physicians and scientists at Marshfield Clinic Research Institute.

Support services and local care:

- Heart Failure Improvement Clinic, supporting nearly 1,700 heart failure patients across our health system.
- Comfort items for patients visiting the hospital or Clinic, including coffee in waiting areas, TVs and DVD players, music and art pieces.
- Educational materials such as pamphlets, books and DVDs to help patients and families understand heart health.
- Support groups for patients navigating heart disease challenges.
- Community conferences and seminars to promote awareness of heart health and overall wellness.
- Angel Funds, assisting pediatric patients in need and their families with basic, non-medical needs such as rent or mortgage payments, car repairs, groceries, utility bills and transportation to Clinic appointments so they can focus their resources on treatment.

Add your support for heart health in your community and beyond.

Together we enrich lives.

Marshfield Clinic Health System Foundation enriches lives by shaping the future of patient care, research and education at Marshfield Clinic Health System through philanthropy. Since the 1970s, over \$100 million in philanthropic support has been given to benefit Marshfield Clinic. Philanthropy at Marshfield Clinic Health System provides an opportunity for grateful patients to thank their care team, helps ensure our research and education programs remain strong and gives our providers the important resources they need to care for their patients.
